Ebony Concerto recorded in the US

Reissue of the original The Record Society LP by World Record Club, as part of their "Music Of the 20th Century" series. Issued in a regular flipback sleeve with new artwork, but on the same Record Society labels. Issued again in May 1967 - pressing variations, if any, unknown. Mono and stereo versions have an identical sleeve with 6157 on the back and spine - the mono version has "6157" on pink & grey labels, while the stereo has "S-61577" on green and grey labels. There is a printed "stereo" rosette on the back, and the mono has a red sticker with "mono" placed over this (though these tend to drop off with age).
