## Comments about **Creatures Vol.2** - Various

### **Berenn**

"Mind of God is my favorite creature on these sample days of testing them all out. It seemed the most intelligent, the most LSD-vision-inflicting creature on the 'Creatures Vol.2' compilation CD. Has a good rhythm of heart and did show excellent self-hygiene. It made me consider leaving my wife in order for a long-lasting relationship with this creature of danceable visions and intellect." - Doctor Phill of YIKIS Webzine
