Notes on the sleeve:

"Panthalassa" marks a return to some of the most important recordings of Miles Davis' passionate and controversial "electric" period of the early 1970s. Conceived by producer Bill Laswell as a modern mix translation and reconstruction in sound, this unprecedented project features newly restored performances and never-before-heard extended themes from "In A Silent Way" , "On The Corner" and "Get Up With It" - all taken from the original multitrack tapes.
