## Comments about **The Fountain (Original Motion Picture Soundtrack)** - Clint Mansell

### **Xarcondre**

Not experiencing any significant sound issues on my copy. It could have been better of course, but it's far from poor. A 2xLP would've been the sensible choice though.

### **Qus**

The sound on this variant is poor. Stay away unless you don't care about quality.

### **Sardleem**

Any sound problems with this edition? The gold/yellow edition seems to have a lot of surface noise. Check:

### **Darkraven**

Is anyone aware of anything that differentiates a sealed MondoCon exclusive limited edition from the edition subsequently sold at Mondo's website? I've seen both and to my eye when sealed in shrink they look identical...thanks.

### **Arryar**

looks like an equally gorgeous edition is coming out 11/2/16:

### **Helldor**

I hope that the pre-sale version coming in Nov. is standard black, as I will be playing the hell out of it. Would rather keep the MC version to stare at through eternity.

### **Mustard Forgotten**

<https://mondotees.com/blogs/mondocon-news/the-fountain-screening-with-composer-clint-mansell>"It will be made available first to attendees at MondoCon with an online sale set for November 2016."

### **Whitemaster**

Where did you get the information about a wider release in November?

### **Voodoogore**

Had been hoping a contact for me was going to snag a copy and post out to me to the UK, By the time he had made it round they all sold out. Guess where they ended up, 2+ copies... eBay. Shame!!! I have asked Clint if this is making general sale, he has told me to look out next month. Don't know if it will be quite as lavish as this set however.

### **Ndlaitha**

Can't believe how long I've waited for this and then they release it as Con exclusive. Sucks!

### **Lemana**

dude same here. Now I'm going to have to get this one too, because obviously I can't just get the easy one.

### **greed style**

Only this variant is a con exclusive - it'll be available through regular retailers in November, probably in a different color variant (I'd guess black vinyl) with different artwork.
